Paragraphs

Other people have their troubles, as I noted from my office window last night. Across the street was parked a big furniture moving van. It had 24 automobile license plates. There was a comfortable bunk behind the driver's seat, but he wasn't there — how can a man sleep who has to keep up with 24 license renewals?

Retribution — It's like this: I taught the dog to play with the lawn sprinkler, and yesterday morning woke up to find he had chewed out 25 feet of hose. The training trick was to make him think he had turned the water on — but yesterday the one that was barking was me.

Last time I tried correcting anyone's grammar I lost an argument to my 11-year-old niece in Washington, D. C. She said, "Me and Susie-Q went to the movies." And her uncle said, "I and Susie-Q went to the movies." And she said, "Yes — me, too." And her uncle quipped.

Consistency may be a virtue but it can also be very boring. The administration, angry because Southern congressmen wouldn't let labor write a new farm bill, is now going to revive the civil rights issue — adopting a Northern attitude on a Southern question.

"Air Pirate" is what the Chinese Reds call Maj. Gen. Claire Chennault, old boss of the Flying Tigers. They wish him, that means in Chinese, unhappy landings.

Mrs. FDR Is Criticized By Cardinal

New York, July 22 — (AP) — Francis Cardinal Spellman today criticized Mrs. Franklin D. Roosevelt for her opposition to federal funds for parochial and private schools.

In a letter to the former first lady, the cardinal prelate said that the record of anti-Catholicism which you yourself wrote on the pages of history which cannot be recalled — documents of discrimination unworthy of an American mother.

The cardinal's attack was based on articles written by Mrs. Roosevelt in her column, "My Day."

Mrs. Roosevelt's secretary said at Hyde Park the letter had not yet been received and that there would be no comment until after its arrival. If it comes, Cardinal Spellman made the letter public.

He wrote that, after Mrs. Roosevelt's first column on the Barden bill June 23, he had intended ignoring it.

"But, as the days passed and in two subsequent columns you continued your anti-Catholic campaign, I became convinced that it was in the interest of all Americans and the cause of justice itself that your misstatements should be challenged in every quarter of our country where they have already spun and spread their web of prejudice," his letter said.

"I have received hundreds of messages from persons of all faiths demanding that I answer you. I am, therefore, not free to ignore you."

Federal aid to education is one of the hottest issues now before congress.

The senate already has passed a bill providing for such support. It would permit those states that so desire to use funds for aid to parochial schools.

In the house, the issue still is in committee. However, the bill introduced by Rep. Graham A. Barden (D-N.C.) would bar turning over any of the federal money to parochial schools.

In her June 23 column, Mrs. Roosevelt said the controversy made by Francis Cardinal Spellman that Catholic schools should share in federal aid funds forces upon the citizens of the country the kind of decision that is going to be very difficult to make.

Luciano Given Freedom of All Sicily

Lercara Friddi, Sicily, July 22 — (UP) — Charles (Lucky) Luciano was given the freedom of Sicily today despite Rome police orders that he sit himself down in his home town and stay there.

The deported New York vice overlord came home to Lercara Friddi yesterday in a garish Red taxi after a boat and rail trip from Rome, where he was investigated in connection with an international narcotics ring.

Luciano was accompanied by an anonymous bodyguard and his girl friend, Lisa Iannone, a 29-year-old blonde Milan dancer.

The Rome police orders said that Luciano had to stay in the town for a week unless he received special permission to make a trip for a good reason.

However, he was greeted with enthusiasm by the 15,000 residents of Lercara Friddi. The natives informed the press they looked upon Luciano, despite his unsavory past, as if he were a rich uncle from America, a successful businessman or a heroic son.

Luciano had been here in 1906 when his father emigrated to America. At that time he was 10 years old. He returned in 1916 when deported from the United States, but stayed only long enough to catch the first train to Rome. He said it was "too quiet."

WEATHER FORECAST
Arkansas: Clouds, showers, clearing, with light breeze. Temperature, 65 to 75.

KILLED IN ACCIDENT
Barnett, July 22 — (AP) — William Barnett, 16, of Memphis, Tenn., killed in an automobile accident near here last night.

50TH YEAR: VOL. 50 — NO. 236

National Polio Rate Ahead of Worst Year

New York, July 22 — (UP) — The National Foundation for Infantile Paralysis reported today that the national polio rate is 35 per cent ahead of a year ago.

The foundation said 1948 was the worst polio year on record, with 27,350 cases.

A total of 4,895 cases have been reported through July 16 this year, the foundation said. On that date last year, there had been 3,601 cases.

For the week of July 10 to 16, 1,016 cases were reported as compared with 716 for the corresponding week in 1948.

Oklahoma, the foundation reported, was the hardest hit of 48 states. There were 59 cases in Oklahoma at this time last year. Now there are 354.

However, polio was on the rise in only 36 of the 48 states. In North Carolina it had receded.

North Carolina totaled 648 cases at this time last year. Only 68 cases have been reported thus far in 1949.

In New York City, on this day a year ago, there were 47 cases of the dead disease. Today, there are 174. However, the rate still was below 1944 when there were 1,890 cases and in 1931 when 4,128 were reported. Authorities said the disease has not reached epidemic proportions.

Little Rock, July 22 — (AP) — Polio continued to increase its toll in Arkansas today but the state health department expressed hope that the spread of the disease is slackening.

Two polio deaths within 24 hours boosted the state's total for the year to 19, and the health department reported there had been 396 cases since Jan. 1. A tally by the Arkansas Democrat showed 401 cases.

The health department's hope — not a prediction — of a letup in polio was made in the case of past experience showing that July, August and September are the most dangerous months.

A department spokesman called attention to the fact that the 12 new cases reported yesterday and the nine new ones today were under the age of 10.

The 19th death was that of Marion Wilson, 14, of Cassville (Baxter county), who died in a Little Rock hospital this morning.

Two and a half-year-old James E. Merton of Mt. Pleasant (Izard county) died in a doctor's office at Guy yesterday.

Little Rock hospitals this morning were treating 121 polio patients. Facilities were increased to care for at least 35 more as the Arkansas Baptist hospital turned its chapel into an isolation ward.

Seattle Police Find Bodies of Aged Couple

Seattle, July 22 — (AP) — The bodies of an elderly couple, bound together by a sheet, were found last night in a lonely wooded area.

Both victims had been shot and one appeared to have been struck with a heavy instrument.

The couple, Mr. and Mrs. Howard, were found by a search party after a relative called at their home and found it occupied by strangers.

Capt. John Kenderis of the police county sheriff's detective division, said the bodies were found by berry pickers a mile off the highway, about 16 miles east of Enumclaw.

Kenderis said the slayer had gone to great lengths to hide the scene. The bodies were found off which the bodies were found were strewn with logs, presumably pulled over the trail as the slayer left the scene. A "no trespassing" sign had been placed at the entrance to the trail.

The bodies of the human flesh were found in two bullet holes at the couple's blood-spattered Tacoma home.

Kenderis said Mr. and Mrs. Leroy Love were occupying the house at the time they were found, four days ago in a neighborhood tavern from a man.

Enley was 62 and his wife, Elizabeth, 67.

Rape Charge Filed Against Negro

Late yesterday charges of rape were filed against Herman Maxwell, 20, confessed Negro rapist, in Hempstead Circuit Court and an early trial will be asked by Prosecuting Attorney James H. Pilkinton.

Maxwell, captured six hours after he raped an expectant white mother at her home near DeAnn, nearby refused to answer charges. He was first jailed at New Boston, Texas and later removed to another undisclosed jail.

Slayer of Four Faces Sentence Despite Defense

Wiggins, Miss., July 22 — (UP) — Murdock Hinton, Lueddale, Miss., farmer accused of slaying a sheriff and three members of his own family today faced death in the electric chair Aug. 26 despite defense contention that he could not tell right from wrong.

Hinton was convicted last night of the murder of Sheriff J. E. Nelson last Dec. 14. He is under indictment for killing his estranged wife, daughter and granddaughter the same day.

It took the jury one hour and 35 minutes to decide that Hinton murdered the sheriff. Defense attorneys indicated that they would file an appeal for a new trial.

Hinton had claimed that he became mentally unbalanced when he learned that his wife, Mattie, was allowing his unmarried 16-year-old daughter to go around with Sheriff Nelson.

He said his daughter, Gloria, had told him Nelson was the father of her two-months-old daughter. Both Gloria and her daughter were among the victims.

Hunt's Dairy Used to Catch 5 Per Centers

Washington, July 22 — (AP) — A dairy giving the day by day activities of management counselor James V. Hunt is being used to track down leaders in the senate investigation of "five per centers."

The Evening Star said today it learned the dairy is about 1,000 pages long and "spiced with the names of influential government officials and their underlings."

Existence of the diary was confirmed by some government officials who refused, however, to discuss it further.

A Massachusetts manufacturer's report that he had paid \$3,000 to Hunt for help in getting government contracts touched off the inquiry into charges that some persons, for a fee, have tried to influence the award of the contracts.

The investigation is being made by a senate expenditures subcommittee. Evidence, already turned up by the group, is resulted in the suspension of two top-ranking army generals.

Maj. Gen. Harry H. Vaughan, the president's military aide, also has figured in the investigation. Senator Mundt (R-S.D.), a committee member, said today he thinks it is certain that Vaughan will be called to testify at public hearings.

UAW Plans to Pull Ford Workers Out

Detroit, July 22 — (AP) — Final moves are underway to enable the CIO United Auto Workers to pull the Ford Motor Co. production employees out of the strike.

Michigan's labor mediation board is preparing for a secret strike poll of the 75,000 Ford workers in this state.

A strike to back up current wage and contract demands, including \$100-a-month pensions — already has been approved in a UAW-conducted vote among 100,000 Ford employees.

That poll showed that they are 7 to 1 in favor of a walkout, if necessary, to get their demands met. The UAW is planning a strike that shut down Ford plants in May.

But the state balloting is necessary to comply with terms of Michigan's Bonine-Tripp labor law. In that state, a strike vote conducted by the union is ample authorization for a walkout, and Ford workers may be called out at any time.

The UAW filed a 10-day strike notice with the mediation board yesterday, but said it would take no walkout action until the vote was completed. That may require three weeks, Board Chairman Noel P. Fox said.

Once such a vote is taken, there will be no legal barrier in the way of a strike.

Economic obstacles, too, are being cleared away by the union. Last week at Milwaukee, the auto workers international convention approved a special assessment which could build up a \$10,000,000 strike fund.

Mother Would Pay Off Money Her Son Embezzled

Charlotte, S. C., July 22 — (UP) — The mother of an atomic energy commission public relations officer accused of embezzling \$1,000 from the Red Cross, said today she would pay the money to pay it back.

Mrs. J. A. Snelling, mother of Tracy Snelling, the accused man who turned up this week after being reported missing several days from his job at the Los Alamos, N. M., atomic project, said she is convinced her son "didn't steal the money."

Mrs. Snelling said she feels distressed, after talking to him by telephone, that he "borrowed" the money to pay off when he "got in a jam."

"My son is not a rogue," she said. "I know he didn't mean to steal the money. If he had only called me this would not have happened. But I am going to send him the money to pay back the Red Cross just the same."

Mrs. Snelling said Tracy told her he gave up to the FBI as soon as he learned he was the object of a search.

Russia Attacks Action of Catholic Church

London, July 22 — (AP) — The Moscow radio charged today that Roman Catholic excommunication of Communists was a Vatican contribution to "the cold war that Anglo-American reactionaries are waging against the camp of peace and democracy."

It said the ban was intended "to split the united front of people fighting for peace against the Anglo-American war-mongers," and added that it was bound to fail.

The English-language broadcast by Commentator Boris Isakov was the first public Russian reaction to the excommunication decree of July 13.

Isakov declared that by the decree "all the enormous ramified propaganda machine of the Catholic church is placed at the service of reactionaries who are waging war against the camp of peace and democracy. The July 13 decree is actually one more Vatican contribution to this 'cold war'."

"The camp of peace and democracy" is a favorite Russian term for the Soviet union and its satellites.

The broadcast accused Catholic clergy of "preying on the religious traditions and feelings of many plain people in an attempt to disarm them morally to weaken their will to resist the danger of a fresh aggressor which is threatening the world."

"But this maneuver is doomed to failure," the Moscow radio said. "The broad masses of the people have come to see very clearly that they can uphold peace only by drawing closer to each other; only through a staunch fight waged by a united front of working people irrespective of their religious convictions."

"Nobody will be able to split this unity," the broadcast said.

It said the reason the Pope issued the ban on communism "lies in the successful peace movement and the number of Catholic laymen and even priests taking part in it."

Escaped Negro Is Fighting Extradition

Tacoma, Wash., July 22 — (UP) — A woman attorney appears in court today to fight the extradition of an escaped convict who says road camp guards will shoot him if he goes back to Florida.

Charles Seiber, 24, of Clinton, Tenn., said he escaped twice from the Hillsburg, Fla., county jail camp when he was serving a year for auto theft. He was recaptured in Ohio and returned after the first escape.

"They told me they would shoot me if I ever escaped and was returned again," he said. They told him he would be shot while making a break.

Seiber joined the army after his last escape. While AWOL, he was caught in a stolen car and sentenced to McNeil island federal prison. After his release last week, Florida authorities sought his extradition.

Attorney Mary Morton agreed to defend him after allegedly learning from Howard Kahn, a reporter from the Tampa Daily Times, that conditions at Hillsburg were as bad as Seiber claimed.

She Earns Living By Changing Color of Her Hair But Most Women Just Do It for Nothing

By HAL BOYLE
New York — Mrs. Mamie Hohnacker is a real odd job lady. She earns a living turning her hair different colors — as many as eight to ten times a day. So far as she is concerned, the color of her hair is a matter of convenience.

This chameleon-like existence is her own idea. She thought up the job of color rinse tester herself. Five years ago she went to work as a technician in the Nestle-Cemur laboratory at Meriden, Conn., where she manufactures hair rinses. She was assigned to help mix colors.

Mrs. Hohnacker is something of a perfectionist. After a time she went to her boss and asked: "How can we be absolutely sure we are getting the right shade in each color when we're just mixing chemicals? Why not test each vat of color rinse on real hair? Then we can be certain."

Her boss agreed to her idea. They used different models, but the varying texture of their hair would make it difficult for the laboratory experts to maintain exact color standards.

It was pointed out to her that if she was going to do this, she would have to find her own hair.

"There wasn't time to do anything," she said. "I had to leave immediately for a dinner engagement. So I marched out, hoping I wouldn't be too noticeable."

Shortly afterward, when she was at dinner, a man at the next table kept staring at her green hair. Then he called a policeman who came over and tactfully asked her if anything was wrong.

"No, I'm just a guinea pig," said Mrs. Hohnacker. It took a long time to get her hair back to normal. Then the policeman who wasn't a fugitive from a psychiatric ward.

Mrs. Hohnacker says her job as a color rinse tester has one fine thing — it doesn't give you ulcers," she laughed.

Violent Death Toll in State Mounts to 13

By The Associated Press
Toll of violent death in Arkansas this week had risen to 13 Friday.

Edward Eaves, 19, an employ of the Arkansas State college dairy farm near Jonesboro, drowned Thursday while swimming in a stock pond on the farm.

Frank Olhoff, 68, was killed when he tripped and his rifle discharged accidentally as he walked through a pasture near Salem.

Previously there had been four deaths from traffic accidents, four homicides, two suicides and one death resulting from a fall from a train.

London Dock Workers Vote to Return

By The Associated Press
London's striking dock workers voted today to return to their jobs Monday.

The strike, denounced by the labor government as Communist-inspired, began June 27. It tied up vital British export cargoes, hampering Britain's drive to overcome her severe dollar crisis, and brought about government operation of the docks under a state of national emergency.

Troops, concentrating on unloading food supplies, have prevented any severe shortages in Britain's food supply.

Before the vote to return to work was taken, there were more than 15,000 dock workers on strike. By the time the strikers got back to work Monday they will have lost about 400,000 lb. (\$1,000,000) in wages.

The London walkout began as a sympathy move with the Canadian seamen's strike (CSU) which had blacklisted two Canadian ships docked in the British port. A member of the strike committee said the CSU now has agreed to "clear" the ships.

The Moscow radio charged today that Roman Catholic excommunication of Communists was a Vatican contribution to "the cold war that Anglo-American reactionaries are waging against the camp of peace and democracy."

The broadcast, heard in London, was the first public Russian reaction to the excommunication decree of July 13. "The camp of peace and democracy" is a favorite Russian term for the Soviet union and her satellites.

P. B. Arsenal May Dismiss 425 Workers

Pine Bluff, July 22 — (AP) — Four hundred and twenty-five civilian employees at the Pine Bluff arsenal may be dismissed.

Col. W. A. Copthorne, commander of the arsenal, said 30-day contracts would not be given to those affected. The arsenal has been engaged in the scrapping of surplus and obsolete ammunition.

The colonel said, however, that efforts would be made to advance the phases of the arsenal's activity to absorb all but part of those employees marked for dismissal.

The situation resulted from a decline in the demand for scrap, causing suspension of the demilitarization program.

The arsenal now has 1,338 civilian employees.

Administration Farm Plan Goes Down in Defeat

Washington, July 22 — (AP) — A crushing house defeat of a controversial farm plan set the administration to work today on salvage operations in the senate.

With a powerful combination of Democrats and Republicans in control, the house late yesterday voted 230 to 170 to kill a proposed "trial run" of the farm subsidy plan of Secretary of Agriculture Brannan on eggs, potatoes and wool. The coalition was led by Rep. Gore (D-Tenn.) normally an administration follower. It triumphed despite a plea from Speaker Rayburn (D-Texas) to give the Brannan plan a try.

Instead, the house voted 383 to 23 to continue for another year the rigid wartime farm price supports at 90 per cent of parity. Parity is a complicated formula that gives farmers a purchasing power in fair relationship to the cost of things they must buy.

Today Senator Elmer Thomas (D-Okl.) chairman of the senate agriculture committee, indicated he hoped to turn the tide in the senate, or at least gain a compromise.

But while Thomas reflected some optimism for the Brannan subsidy plan, some other farm-minded senators foresaw defeat for it in the senate too.

They said a possible senate-house deadlock may toss the whole issue into next year's political campaign while a flexible farm-price support program, enacted last year, becomes law January 1.

Repeal of this law, even before it goes into effect, was another act of the farm lobby yesterday. This one without a record ballot. It would allow levels of government price supports to decline if surpluses developed but would not require it.

Congress to Get Arms Aid Bill Monday

Washington, July 22 — (AP) — The White House announced today President Truman will send to congress Monday a proposed program of foreign military aid to back up the Atlantic pact. Vice President Berkeley said it will be pressed for passage at this session.

Barkley, who attended a cabinet session at the White House, said the administration hopes to pass both an authorization bill and an appropriation to finance the arms program before it quits around Sept. 1.

The President originally planned to send the arms message to both houses today, but postponed this action until Monday to convene the senate's cabinet leaders. Charles G. Ross, presidential press secretary, told reporters.

Speaker Rayburn had expected the message today, with the hope that hearings on the authorization bill could start in a house committee Monday, Barkley said.

It is understood that the proposed authorization will be for \$1,450,000,000 for foreign military aid, of which \$1,150,000,000 would go to this country's associates in the North Atlantic treaty.

Ross said the message will run from 2,500 to 3,000 words and that it is already prepared.

Vice President Barkley said there was no discussion of the matter in the cabinet session other than the President's announcement he will send up his message Monday.

He said Mr. Truman will send the communication to the capitol rather than read it in a joint session. Ross was told that there was a report the postponement was caused by an administration decision to write an atomic reference into the message.

"That is not so," Ross said. "Ross was asked if it contains any references to atomic matters as a result of questions in the senate on whether this country might supply atomic weapons to associates in the treaty. He said he would not forecast any of the content."

He would not say whether the authorization legislation would give a breakdown on aid for each participating country.

L. R. Union to Help Charged Labor Leader

Little Rock, July 22 — (AP) — A labor leader found in contempt of a Washington county court has been promised the help of a Little Rock local if he wishes to appeal his penalty.

The Little Rock central trades council has pledged its "moral and financial support" in event Joe Folsom, president of the Fort Smith building trades council, wishes to fight his sentence after a court order prohibiting picketing had been issued. But fined Folsom \$1,000 and sentenced him to six months in jail.

The pickets were given shorter jail terms and smaller fines. The Fort Smith and Little Rock councils are affiliated with the American Federation of Labor.

Father Sentenced for Rape of Daughter Age 2

Los Angeles, July 22 — (AP) — The brutal rape of his two and a half year old daughter has brought a prison term for Carl M. Hott, 28, a 220-pound boilermaker's helper.

Hott was convicted yesterday and sentenced to one year to life in San Quentin prison. Superior Judge Stanley Eames heard a statement from Hott's wife, now in Keyser, W. Va.

Hott admitted the morals offense against his daughter, Carol Elaine, while he was caring for her and her twin brother, Carl, in a trailer. The judge ordered him to undergo psychiatric treatment while in prison.

Police Guns Used on Gambler

Los Angeles, July 22 — (UP) — Shotguns loads which cut down mobster Mickey Cohen and three others were identical with those commonly used in Los Angeles police gun tests, the sheriff's crime laboratory reported today.

The report was made only a few hours after police Chief William Horton said he had been told that members of his own department may have plotted the attempted assassination of the squat, Dapper Cohen.

As suspicion turned to the police department, a witness reported that a shapely blonde "finger woman" may have tipped off gunmen when Mickey was ready to leave Sherry's swank Sunset Strip restaurant. He said he thought she left the restaurant minutes before repeated shotgun blasts mowed down the gangster, a pretty actress, a Cohen henchman and a state investigator assigned to guard Cohen.

All four are in Queen of the Angels hospital, Cohen the least seriously wounded. All are expected to recover.

A sheriff's detective revealed that all but two of the shells used in the shooting were loaded with "o-o" buckshot. He said such a load is standard in police department riot guns but pointed out such shells also are available in most sporting goods stores.

However, the laboratory report emphasized Worton's earlier disclosure that unnamed members of his own department were under suspicion of engineering the attack.

Police are seeking anyone who might have information on the alleged revenge for disclosures by Cohen which touched off a current grand jury investigation into police-protection vice.

Wad of Paper Only Clue in Sex Murder

Ogden, Utah, July 22 — (UP) — A wad of paper jammed down the throat of a pretty 17-year-old Shirley Gretzinger was examined today in hopes it would lead to the man who strangled her and left her nude body lying in a field.

The strawberry blonde Sunday school teacher's body was found yesterday beneath a willow tree near a roadside suburban Mormon chapel.

Her brassiere and pink bolero blouse were twisted about her neck, a wad of paper thrust down her throat, and her blue print skirt rolled into a rough pillow beneath her head.

A pathologist said she may have been molested sexually but a preliminary examination showed no evidence that she had been raped.

The wad of paper was handed to the federal bureau of investigation for examination in hope it would yield some clue to the murderer.

Shirley Mae Wade refused to say whether it was marked or blank. He said the slaying was the "most heinous crime" in the community's history.

A trap laid by Wade last night failed to snare a heavy-voiced man who was believed to have lured the popular high school sophomore to her death.

The stranger had called Shirley's closest friend, Lee Rogers, 17, Wednesday in answer to her advertisement offering baby-sitting services. The man said he wanted someone to take care of his children while went to a rodeo.

Miss Rogers couldn't take the job but turned it over to Miss Gretzinger, who agreed to meet the man on a downtown street corner. She was last seen alive when she left home to keep the appointment.

Spring Hill to Discuss School Budget

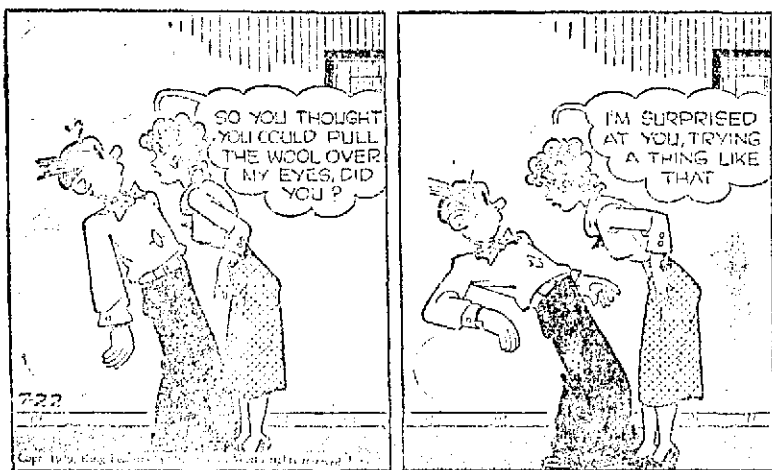

The school board of Spring Hill District No. 10, headed by R. A. Souter, president and Hugh Garner, secretary, has called a meeting at the school at 8 p. m., July 28, for the purpose of discussing finances.

All interested persons are asked to meet with the board at which time the 1950-51 budget will be made public and necessary tax levy will be discussed.

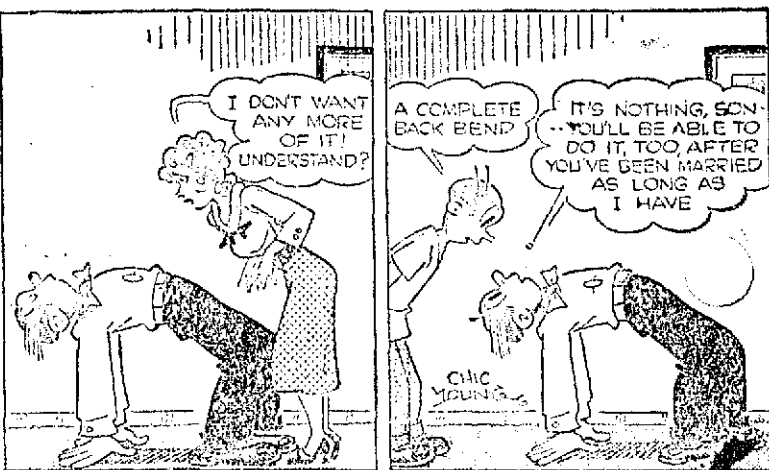

The geographic center of North America is at Winnipeg, Canada.
